Cordless Rechargeable LED Folding Light Quick Reference Guide

Introduction

SIIG's *Cordless Rechargeable LED Folding Light* features tri-fold design and rechargeable battery for portability and ease of use. It integrates 18 LEDs with adjustable light output, multi-function clock/alarm/temperature display, battery charge/power status LED and is wall mountable. This portable cordless rechargeable LED light is the prefect solution for your on-the-go or at home lighting needs.

Package Contents

- *Cordless Rechargeable LED Folding Light*
- Mini USB charging cable
- Wall mount bracket
- Carrying pouch
- Quick reference guide

Layout

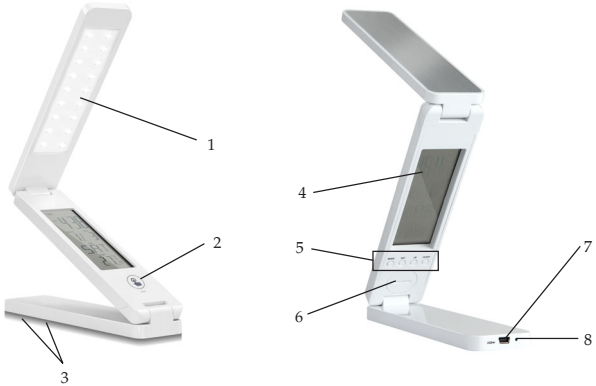

Figure 1: Layout

1. **LED Lights**
   18 LEDs with output up to 108 Lumens.
   Color Temperature: 5500K(Daylight Color)
2. **One-Touch Dimmer Switch**
   Touch the switch to adjust the LED light brightness or tap once to turn the power on or off.

Figure 2: One-Touch Dimmer Switch

3. **Mounting Holes**
   To be hooked up with **Wall mount bracket** when mounting the *LED Light* to wall.

4. Time/Temperature Display

Displays the time, day, date and temperature. You can also set the alarm here.

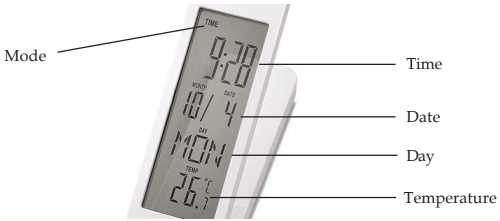

Figure 3

5. Display Settings Buttons

Press the buttons to change the alarm or time/date/day setting.

6. CR2025 Battery Compartment

Powers the Time/Temperature display via CR2025 battery.

7. Mini USB Charging Port

Connect to USB power source to charge the internal rechargeable battery

8. Charging Status LED

The indicator of the charging status

Figure 4

Instructions for Use

1. When using the *LED Light*, hold the base stand by one hand, and pull the upper light arm upward by another hand to unfold it.

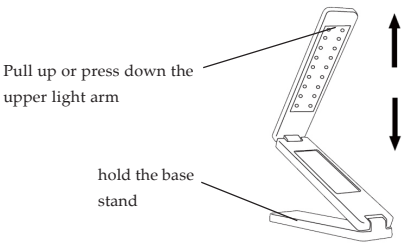

Figure 5

2. Plug the **Mini USB** tip of included **Mini USB charging cable** into the *LED Light*'s **Mini USB Charging Port**, then plug the other end of the **Mini USB charging cable** into either a USB port of your computer or a USB wall charger.

   The **Charge Status LED** will turn red to indicate the charging process has begun.

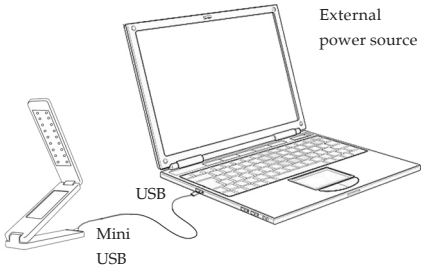

Figure 6

NOTE: Please use the included **Mini USB charging cable** to charge the *LED Light*. Using a different USB cable is not recommended.

3. Wait for the **Charging Status LED** goes off, the charging process is complete.

NOTE: Please make sure the *LED Folding Light* is fully charged before use.

4. Before initial use, please remove the CR2025 Battery protection tab to power on the **Time and Temperature Display**.

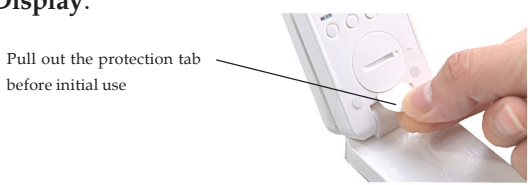

Figure 7

5. For future battery replacement, rotate the battery cover clockwise using a coin or other similar shaped object to remove it. Insert a new CR2025 with the positive side facing up, then reinstall the battery cover by turning it counter clockwise.

Figure 8

6. Pull up or press down the upper light arm to the best angle to fit your needs.

NOTE: There's a sensor on the back of the base stand (See **Figure 9a**). If the unit is fully folded, the LED lights turn off automatically (See **Figure 9b**).

Figure 9a

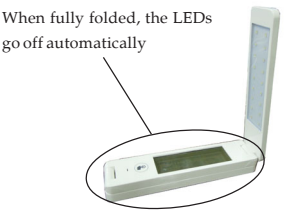

Figure 9b

LED Light Adjustment

Use the **One-Touch Dimmer Switch** to adjust the brightness as needed.

Touch one time	To turn on or turn off the LED light
Touch and hold	To turn down or turn up the brightness

NOTE: The LED light output will gradually dim during use. Please recharge the LED Light at this time.

Time/Date Settings

Press the **Display Settings Buttons** on the rear side of the change the Time/Date settings.

MODE	Press the button to switch between "time display mode" or "alarm mode". * In time display mode, it shows **TIME** on the display; in alarm mode, a clock symbol appears instead.
SET	Press **SET** button and the section you are going to change will start blinking. To change the settings, press **UP/DOWN** buttons; to keep it the same, just press **SET** button again, and you'll proceed editing the next section. When the setup is complete, press the **SET** button again to save the change. **NOTE**: The "Day" information will change automatically. No need to adjust it manually.
UP	Press the **SET** then **UP** button to set your Time/Date backward.
DOWN	Press the **SET** then **DOWN** button to set your Time/Date backward.

Alarm Settings

1. Press the **MODE** button to change to Alarm mode.
2. Press the **SET** and **UP/DOWN** button to set your alarm time, alarm internal in snooze mode, and ring tone in order.

> **NOTE**: Snooze mode is supported by the *LED Light*; the alarm will ring for 1 minute on regular interval.

3. Press the **SET** button again to save the settings.

Other Display Settings

1. Press the **UP** button to select between 12-hour and 24-hour time display.
2. Press the **DOWN** button to select between Fahrenheit and Celsius temperature display.
3. Press the **Alarm** button to turn off the alarm.

Application

- **Wall Mount**

  Peal off the protective cover from the adhesive tape on the back of the **Wall mount bracket**, then press and hold the **Wall mount bracket** to the wall for 5-10 seconds. **IMPORTANT**: The hook opening should face up.

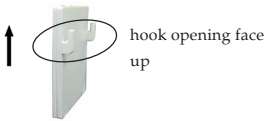

Figure 10

NOTE: For best adhesion, make sure to clean the wall surface before attaching the bracket to the wall.

Place the *LED Folding Light* vertically. Make sure the **Mini USB Charging Port** is facing up.

Line up the two **Mounting Holes** on the *LED Light* to the hooks of the **Wall mount bracket**, then insert it. See **Figure 11a**.

Pull down the *LED Light* firmly, but gently, make sure the *LED Light* is hooked onto the **Wall mount bracket**. See **Figure 11b**.

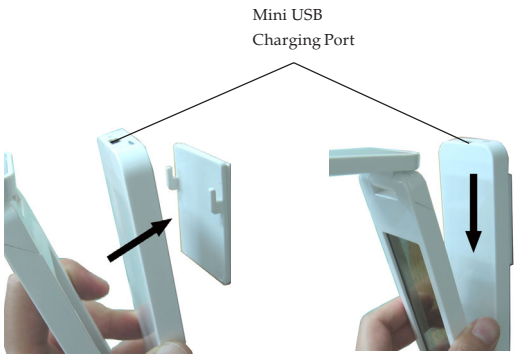

Figure 11a **Figure 11b**

- **Desktop**
  Unfold and place on the desktop. See **Figure 12a**.
- **Fully folded**
  Fully fold and carry anywhere. See **Figure 12b**.

Technical Support and Warranty

QUESTIONS? SIIG's **Online Support** has answers! Simply visit our web site at ***www.siig.com*** and click **Support**. Our online support database is updated daily with new drivers and solutions. Answers to your questions could be just a few clicks away. You can also submit questions online and a technical support analyst will promptly respond.

SIIG offers a 2-year manufacturer warranty with this product. This warranty covers the original purchaser and guarantees the product to be free of any defects in materials or workmanship for two (2) years from the date of purchase of the product.

SIIG will, at our discretion, repair or replace (with an identical product or product having similar features and functionality) the product if defective in materials or workmanship. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Please see our web site for more warranty details.

If you encounter any problems with this product, please follow the procedures below.

A) If it is within the store's return policy period, please return the product to the store where you purchased from.

B) If your purchase has passed the store's return policy period, please follow the steps below to have the product repaired or replaced.

Step 1: Submit your RMA request.

Go to **www.siig.com**, click **Support**, then **REQUEST A PRODUCT REPLACEMENT** to submit a request to SIIG RMA or fax a request to 510-657-5962. Your RMA request will be processed, if the product is determined to be defective, an RMA number will be issued.

Step 2: After obtaining an RMA number, ship the product.

- Properly pack the product for shipping. All accessories that came with the original package must be included.
- Clearly write your RMA number on the top of the returned package. SIIG will refuse to accept any shipping package, and will not be responsible for a product returned without an RMA number posted on the outside of the shipping carton.
- You are responsible for the cost of shipping to SIIG. Ship the product to the following address:

  SIIG, Inc.
  6078 Stewart Avenue
  Fremont, CA 94538-3152, USA
  RMA #: _____

- SIIG will ship the repaired or replaced product via Ground in the U.S. and International Economy outside of the U.S. at no cost to the customer.

About SIIG, Inc.

Founded in 1985, SIIG, Inc. is a leading manufacturer of IT connectivity solutions (including Serial ATA and Ultra ATA Controllers, FireWire, USB, and legacy I/O adapters) that bridge the connection between Desktop/ Notebook systems and external peripherals. SIIG continues to grow by adding A/V and Digital Signage connectivity solutions to our extensive portfolio.

SIIG products offer comprehensive user manuals, many user-friendly features, and are backed by an extensive manufacturer warranty. High quality control standards are evident by the overall ease of installation and compatibility of our products, as well as one of the lowest defective return rates in the industry. SIIG products can be found in computer retail stores, mail order catalogs, through major distributors, system integrators, and VARs in the Americas and the UK, and through e-commerce sites.
